

To the Nike Board and Executive,

Living wages are a human right and fundamental to gender equality within the garment industry.

We call on you to step up and support the women who make your clothes through this crisis by:

- 1. Paying for all orders during the pandemic
- 2. Paying 10 cents more per garment into a crisis fund so garment workers have access to wages and benefits, including severance pay
- 3. Protecting workers' right to organise and bargain collectively.
